

Transforming Retail Banking to Next Level

Software Firm Specialized in Banking & Financial Product Services
9+ years in IT, 300+ projects, 200+ engineers

SecureFinance Internet Banking Solution

"Internet Banking allows customers of a financial institution to conduct financial transactions on a secure website operated by the institution."

Key Modules:

- 24x7 Online Password Manager
- Online Fund Transfers
- One Time Password Generation
- Secure Transfers like Payable
- Online ECS Clearance
- Forex Services
- Online Loans
- Online Tax Payments

Benefits:

- **24/7 Services:** Banking online means that the banks no longer need to keep their branches open around the clock. That means you can simply login to the website of the bank and get what you're looking for. Self-service is the key here.
- **Monthly Statements:** With online banking there is no need to visit the bank, call up the branch, or wait for a financial statement to come in the mail.
- **Transfer of Funds:** With online banking there is no need to visit your bank to ask them to transfer funds from one account to another across countries. You can also schedule monthly payments to be made out of your account automatically.
