ReferenceDocs Repository Management

"ReferenceDocs Management enables customers to collaboratively create, manage, deliver, and archive the content that is the core of every business."

Key Modules:

- Document Searching
- Document Logs and Auditing &
- International
- Document Archiving and Storage
- Document Check-in Check-out
- Records Management
- Workflow Management

Benefits:

- ReferenceDocs Repository stores business data and corresponding forms, and the appropriate versions in more effective and retrieval manner. Improved control over documents and document-oriented processes.
- Security over document access and modification. Allows direct web access to users, in a completely controlled environment with the possibility of tracing actions carried out on a document.
- ReferenceDocs system can read printed documents through Reference codes and can automatically indexed in document manager.
